

Report Project SPORTS GROUND SAYA SCHOOL MAIRA AKKU

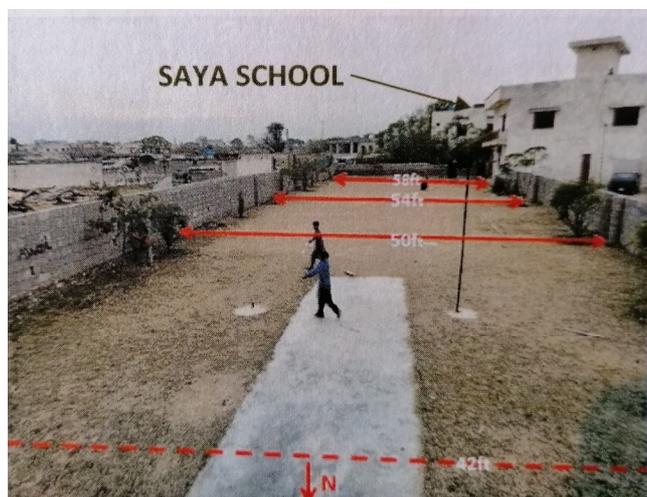

December 27, 2020

Although the possibilities in the schoolyard of SAYA SCHOOL were limited, sports were offered in the school from the very beginning. It was with great pleasure that boys and girls enjoyed sporting game and competition.

For a long time we had in mind to improve the infrastructural conditions for school sports. When we learned from our friends Yamin that there was a plot of land opposite the school that could be used, we started planning for a 'Sports Ground'. Together with our project engineer Saad Asif, the Mrs. and Mr. Yamin and the sports teacher, a concept for the available, not ideal place was developed. A sports field with a cricket pitch, a volleyball court and a football/hockey field was planned.

When in November 2020 we were able to provide the financial resources for the construction of the sports field, we had commissioned Saad Asif to start the realization of the project as soon as possible.

Brigadier (retd) Prof. Tughral Yamin and Saad Asif

Interested observed by the children from the neighborhood, the work began on November 27. After the survey, the site was cleared of vegetation, sprayed with termite-destroying agents, levelled and filled with a substrate for the covering. Finally, the artificial turf was laid and the playing fields painted on.

Thanks to Saad Asif's careful planning and determined construction management, the work was completed on December 20 despite intermittently adverse weather conditions.

The 'Sports Ground' could be inaugurated on December 22, 2020 as part of the school's 'Sport Day 2020'.

The place was taken into possession with enthusiasm; with joy about the good conditions and a lot of temperament students were playing and and contesting.

Even a competition of the lady teachers could not be missing. To the delight of the students, they measured their strength swaying in festive clothes as they tug-of-war.

The school management ended the festive day, which opened a new chapter of sporting activity in the SAYA SCHOOL, with the awarding of trophies and prizes.

Once again a very heartfelt Thank You/Schukria to all our donors, who have enabled us to realize this project, with which children can be offered excellent physical training conditions and enjoyment of life.
