

## The story of an aid program ‘Donation Medical Devices’

In 2018, the dentist Jens Nodop from RICKLING/GERMANY and GERL DENTAL GmbH donated medical equipment.

Using the example of the dental chairs donated by Jens Nodop, we show what happened to them

PAKISTAN-Hilfe zur Selbsthilfe e.V. took over the devices in RICKLING. With the support of the carpentry company Elwardt from BORDESHOLM, it was picked up, stored, loaded into a container and shipped to KARACHI.

After 'some problems' in KARACHI, 4 months later it finally reached the AL MUSTAFA TRUST MEDICAL CENTER in KORANGI/KARACHI. There, our partner Dr. Kashif Chughtai (Chairman We.care e.V., DÜSSELDORF/GERMANY) set up a dental practice in 2020 and, with the support of qualified personnel from GERMANY and local staff trained by them, treats in the meantime at the 6th DENTAL CAMP people from the slum across the street of the Medical Center.

From RICKLING/GERMANY to KORANGI/KARACHI - and it works.
